Carl Horn

2. *Practical aspects of steviol glycosides from the perspective of a product development scientist.*

John C. Fry

3. *EUSTAS Quality Assurance for Stevia Raw Products.*

Peter Grosser

4. *Current status of steviol glycoside analytical methods.*

Troy Rhonemus & Bruce Furlano

5. *EUSTAS Round-Robin Testing of Steviol Glycosides.*

Jan M.C. Geuns & Tom Struyf

6. *Natural sweetener stevioside inhibits atherosclerosis by increasing the antioxidant defence in obese, insulin-resistant mice.*

Benjamine Geeraert, Florence Crombé, Maarten Hulsmans,  
Nora Benhabiles, Jan Geuns, Paul Holvoet

7. *Molecular aspects of early steps in steviol biosynthesis.*

Amal A.A. Mohamed, Jan M.C. Geuns,  
Wim Van den Ende & Marc De Ley

8. *Bacterial consortia from Paraguayan soil samples with  $\beta$ -glucosidase activity degrading stevioside to steviol.*

Annelies Smedts, Stijn Ceunen, Ruis Amery, Jan M.C. Geuns  
and Boudewijn Meesschaert

9. *Stevioside and iso-steviol as starting materials in organic synthesis.*

Nico Moons, Wim M. De Borggraeve and Wim Dehaen.

10. *Status of Steviol Glycosides in France*

Joël Perret
